William Coleman Dissertation Fellowship in the History of Science

**Call for Nominations for 2022-2023
DEADLINE: Friday, February 11, 2022**

The Institute for Research in the Humanities (IRH) is pleased to announce it will be offering one William Coleman Dissertation Fellowship in the History of Science for the 2022-2023 academic year. The William Coleman fellowship is made possible by a generous bequest from Louise Coleman in memory of her husband, William Coleman, UW-Madison Professor of the History of Science. One fellowship is usually awarded each year to an outstanding graduate student in an advanced stage of writing a dissertation supervised by a faculty member in the History of Science, Medicine, and Technology degree program in the Department of History at the University of Wisconsin-Madison. **Application is by departmental nomination only.** The deadline for nomination submission to IRH is **Friday, February 11, 2022**; awards will be announced by the end of March. The History of Science, Medicine, and Technology (HSMT) Program will create its own internal deadline; interested students should check with the History Department for further information.

The Coleman Dissertation Fellowship provides a one-semester stipend (\$13,000), plus tuition remission, segregated fees, and graduate student health insurance benefits. Office space, if desired, will be provided, as well as printing, scanning, and photocopying privileges. Fellows are expected to participate fully in the intellectual life of the IRH by attending the weekly Monday seminars (3:30- 5:00 PM) and by working from their office space the semester that they are funded. Dissertation fellows may continue their association with IRH throughout the academic year of their fellowship regardless of semester chosen for the stipend and tuition remission. Dissertation fellows are also encouraged to participate in weekly afternoon teas, writing groups, and various other IRH events throughout the year. Dissertation fellows are given the option to present at a Monday Seminar, schedule permitting, and garner feedback from the IRH community.

The HSMT Program will select a nominee and send the required materials to the IRH Director for final approval by February 11th. The History Department may nominate the same candidate for the Coleman and Dana-Allen Fellowships at IRH, or choose a different candidate for each fellowship competition. The Dana-Allen nominee will be considered on the basis of how their research contributes to the multi-disciplinary nature of the IRH, while the Coleman candidate will be evaluated for their potential contributions to the

History of Science.

Nominees must have had their dissertation proposals accepted and should have written at least one chapter of the dissertation. Fellows may combine the Coleman Dissertation Fellowship with another semester of support within an academic year, but the Coleman Dissertation Fellowship may not be combined with another major fellowship (e.g., ACLS Dissertation Completion Fellowship, departmental awards), project assistantship, or teaching assistantship during the same semester that the fellow is receiving their stipend from IRH. The Coleman Dissertation Fellowship may **not** be deferred until a later date.

Professor William Coleman (1934-1988) was a distinguished historian of science who taught at UW-Madison from 1978 to 1988. He had previously taught at Johns Hopkins (1961-1978), where he rose to the rank of Professor of History of Science and Humanistic Studies. His association with UW-Madison began in 1970-1971, when he spent the year at the IRH while on fellowship from the American Council of Learned Societies. He returned to IRH from 1977-1978 while on a fellowship from the National Endowment for the Humanities. In 1978 he was appointed Professor of the History of Science and History of Medicine and in 1984 was named Carol Dickson Bascom Professor in the Humanities.

Professor Coleman's original interests were in the history of zoology and evolutionary theory. He wrote two books in this area: *Georges Cuvier, Zoologist. A Study in the History of Evolutionary Theory* (1964); and *Biology in the Nineteenth Century: Problems of Form, Function and Transformation* (1971). His interests then shifted toward the connection of science with social and political thought. He also wrote two books on this subject: *Death Is a Social Disease: Public Health and Political Economy in Early Industrial France* (1982); and *Yellow Fever in the North* (1987).

Professor Coleman served as President of the History of Science Society and was elected to the American Philosophical Society. We are grateful to, Louise Coleman, for establishing the William Coleman Dissertation Fellowship in his honor.

Nomination Materials:

The nomination materials should be submitted to IRH via email by the nominating department (*not* the student) and should include the following 5 items:

- **Completed Coleman Nomination Form.** PDF form available on the IRH Website (note that this application form requires a *shortened* 100-word dissertation abstract which will be significantly different from required dissertation proposal below).
- Project/dissertation proposal. Up to 1,500 words (about 5 double-spaced pages). The proposal should include a description of the project and its significance, a chapter outline, a summary of work accomplished to date, and a plan of work to be undertaken during the fellowship term.
- Dissertation bibliography. Scholarship relevant to the project (up to 2 pages).
- Curriculum Vitae. Including work forthcoming and in progress.
- Letter of recommendation. From the student's dissertation director or advisor,

which should address the significance and feasibility of the proposed research, quality of the proposal, qualifications for the project, past work, and potential contributions to and benefits from being a fellow at the IRH.

Nomination Submission Directions for Department chair/administrator/DGS Submitter:

- Once the department has selected the candidate they would like to forward to the IRH for Coleman consideration, combine nominee's application materials (5 items listed above) into a single pdf file named as follows:
 - **Coleman.2022-2023.NomineeLastName.NomineeFirstName**
- *Note: Please communicate across the department regarding the nomination. Inform all parties (chairs, director of graduate studies, graduate coordinators, administrators, and the student's advisor/dissertation director) of the nomination to assure proper award distribution.*
- Send the file to: info@irh.wisc.edu by Friday, February 11, 2022. With the following subject line:
 - Coleman Fellowship Nomination, 2022-2023, Nominee Name

Deadline:

- Nomination form and nomination pdf deadline: **determined by HMST program/History department; check with department chair/administrator for internal deadline, required application materials, and application process.**
- Department chair/administrator/DGS deadline for submission to IRH: **February 11, 2022**

Inquiries:

- For substantive questions about projects and proposals, contact the IRH Director, Steven Nadler (smnadler@wisc.edu; 608-262-8151)
- For all other questions about this fellowship, contact IRH administrator, Katie Apsey (apsey@wisc.edu; 608-262-3855)
- For questions about the receipt of pdfs, contact IRH Project Assistant (info@irh.wisc.edu)
